USA-Canada Experience November 1st - 2nd 2018

A combined two day workshop for media, tour operators and travel agents

This 2-day event will host a marketplace where the American and Canadian suppliers meet the Dutch tour operators, media, travel agents and reservation staff operating in the Dutch market. Planned to occur immediately prior to World Travel Market in London, this program provides American and Canadian PMO's, DMO's, Airline partners and supplier partners with an exceptional opportunity to inform and educate the Dutch travel trade as well as meeting directly with product managers and media.

The Program

Thursday – November 1st 2018

Starting late afternoon and during the evening a network event, to meet the product managers of the tour operators and the media specialists in the Netherlands. The evening will provide a program enabling to meet with all business partners.

Friday – November 2nd 2018

This will be a full day workshop providing multiple training sessions for the travel agents. Over the years we have an average of 100 travel agents that are attending these trainings sessions. The small groups will move around approximately every hour to a different conference room. In one of those conference rooms the suppliers will have their set-up and they will share this with a maximum of 4 different suppliers. This way multiple presentations can be provided for the different travel agent groups during the day. The full program for the whole group will be in North American style and includes all beverages during the day starting with a welcome coffee, breaks, luncheon and happy hour drinks. ITN Marketing will offer a special EARLY BIRD discount for companies signing up fast.

For further questions or information, you can contact our office ITN Marketing that will be powering the USA-Canada Experience. ITN Marketing is for over 15 years the successful organizer of several USA – Canada travel events b2b and b2c.
